Questions, comments, or brief description of the subject to be addressed:

How often & why do redistricting  
if NOT to reflect changes in  
population to represent true  
current population?  
Gerrymandering seems to  
misrepresent <sup>TRUE</sup> population

When we were given 10 minutes to view the maps  
I simply asked for a descriptive explanation of  
the maps. (no agenda here)  
Although - it seems that districting representation  
should be total population divided by # of  
representatives 90 population  
30 = 1  
30 = 1  
30 = 1
