Re: Gila County Public Works Complex – Administration and Facilities Buildings
ADEQ File #20090348, LTF #51149

Dear Sir/Madam:

The Arizona Department of Environmental Quality (ADEQ), Wastewater & Subdivision Review Unit has completed the preconstruction review for the above On-site Wastewater Treatment system. Enclosed is the Construction Authorization for an On-site Wastewater Treatment Facility, formerly known as a Provisional Verification or Approval to Construct.

After completing construction of the on-site wastewater treatment system and prior to discharging to the system, the permittee shall submit to the Department the "Request for Discharge Authorization" and associated documents in accordance with Arizona Administrative Code R18-9-A301(D)(1)(f). After completion of construction, please submit the "Request for Discharge Authorization" and all required documentation to:

Arizona Department of Environmental Quality
c/o Engineering Review Desk
1110 West Washington Street
Phoenix, AZ 85007

Once ADEQ determines that the construction meets the requirements of the general permit, then a Discharge Authorization for an On-site Wastewater Treatment Facility will be issued, and the permittee may begin discharging wastewater to the system.

If the Department does not receive the Discharge Authorization Documentation within two years of the date of the Construction Authorization, the applicant is prohibited from continuing construction, and the applicant is required to submit a new Notice of Intent to Discharge and any applicable review fees to begin or continue construction.

Sincerely,

Ryan D. Richards
Wastewater & Subdivision Review Unit
WQD Engineering Review Section
