

The Gila County Engineering and Survey Department has various survey records and maps that have been collected over time from several sources. Some of these survey records and maps have been scanned and made available to the public on this website (click on the link on the right for access to these records). Within this link, you will find a folder called Survey Archives. In this folder you will find three main folders labeled Bunger-Gant Maps, Miscellaneous Maps and Various Surveyor's Maps. Each of these folders, have both scanned documents and their own respective Microsoft Access database file. The Various Surveyor's Maps folder has four additional folders inside of it, of which each folder has its own scanned documents and database file. The items that are scanned were selected from various files and maps as deemed most useful to assist someone who may be surveying in a particular area. It should be noted that not all files and maps in the collection have been scanned and inventoried. However, the files that these records came out of are available for review by appointment only at the Gila County Public Works Building located at 745 N. Rose Mofford Way in Globe. Please contact one of the individuals listed below to schedule an appointment to review these files. Copies of any of the records can be made and a fee per page will be assessed at the current rate by copy size at the time the copies are made.

Any questions about this webpage may also be directed to any of the individuals listed below either by e-mail or phone.

Tom Homan – GIS Coordinator

Phone No. 928-402-8515, E-mail address – thoman@co.gila.az.us

Ken Doss – Lead Engineering Technician

Phone No. 928-402-8508, E-mail address – kdoss@co.gila.az.us

Mark C. Guerena, P.E., R.L.S. – County Engineer/Surveyor

Phone No. 928-402-8507, E-mail address – mguerena@co.gila.az.us
